

Paper 1 Title of the Abstract

First Author^{*}, Second Author[†], Third Author^{*†}

^{*} department, institution, country

[†] department, institution, country

Correspondence: **corresponding.author@email.address**

Key words: First key word, second key word, third key word

These are the abstract guidelines for the Second Biennial Meeting on Capita Selecta in Complex Disease Analysis (CSCDA 2012), held on 30 May - 1 June 2012 in Liège, Belgium.

Abstracts should be one page A4, references included. Abstracts should conform to the layout of this example abstract. They should be uploaded in Latex, Word, or RTF. PDF submissions are discouraged. When your abstract contains equation(s) or figure(s), only Latex will be allowed. Furthermore, when your abstract contains figure(s), please send all files in one .zip or .gz file. For the figures PDF, PNG or JPEG are preferred, but other figure formats will be allowed as well.

Abstracts include problem identification, description of the data, analysis techniques and open questions. Accepted abstracts allow you to give a short presentation on your research work, which will be open for discussion with expert panel and public.

The format for the authors is first name — possibly middle initials — surname. Affiliation(s) are required for all authors and include department, institution and country, and should be put in italics. These should be numbered using Arabic numbers. The presenting author should be underlined, and the email address of the corresponding author should be given in italics. Also, 2 up to 5 key words should be provided.

References should be given at the end and should include last names, initials, title, journal, volume and pages. Some examples are given here [1, 2].

The deadline for abstract submission is 31 January 2012. Participants will be notified about the acceptance of their abstract by 15 February 2012. Registration for the conference is open already and the deadline for early registration at reduced fees is 21 February 2012.

If you have questions about the abstract requirements or the submission procedure, do not hesitate to contact **CSCDA2012@montefiore.ulg.ac.be**.
